PROFESSIONAL EXPERIENCE

Customer Success & CRM Implementation Trainee | Digital Witch Support Community | *2026–Present*

- Executed 10+ HubSpot CRM simulations covering onboarding, pipeline configuration, data validation, issue logging, account workflows and customer-risk tracking.
- Built adoption checklists, QBR-style reviews and remediation plans across 3+ account failure scenarios, with recovery plans projected to resolve 80% of issues within 90 days.
- Coordinated 15+ Customer Success deliverables across ClickUp, Slack and Google Workspace with 100% on-time completion.

Customer Success & Implementation Lead | China Civil Engineering Construction Company (CCECC) | *Aug 2023–Dec 2025*

- Owned end-to-end success for a 200+ user, dual-nationality enterprise account across 7 departments, aligning 10+ senior stakeholders and sustaining adoption across a 2.5-year engagement.
- Reduced open escalations by 70%+ within 2 months through structured review cadences and a new coordination/reporting framework; resolved 15+ customer-reported issues monthly with zero missed escalation deadlines.
- Maintained 500+ operational records with zero-error accuracy and introduced repeatable processes that reduced re-escalations by ~35%.

Account Coordination & Stakeholder Management | Huawei Technologies Nigeria Limited | *2021–2023*

- Resolved 20+ urgent delivery disruptions in under 2 hours across multi-ethnic teams and 5+ senior stakeholders, protecting service continuity and stakeholder confidence.
- Maintained 500+ daily records at 100% accuracy and achieved 100% task-handover accuracy with zero confidentiality incidents.

CUSTOMER SUCCESS PORTFOLIO PROJECT

Customer Success Systems & Operations Project | Kobo Pay (Simulated B2B SaaS Portfolio) | *2026*

- Built a 16-company HubSpot portfolio (15 active accounts + 1 churn case) modelling $620K ARR, with custom customer-success properties, renewal deals, a support pipeline and 23 associated tickets.
- Designed a 100-point health-score model using login frequency, open support tickets, onboarding completion and NPS; automated churn-risk tasks/alerts and 60-day renewal reminders with company-based workflows.
- Created a Bright Logistics recovery playbook linking risk detection, CSM intervention, support resolution, adoption recovery and renewal management—clearly presented as a sandbox simulation.
